

Who We Are

Solid Cage, Inc. is a Michigan based Software as a Service (SaaS) provider that offers cost-effective, cutting edge technical solutions in combination with superior support service. We develop lasting relationships with our customers while providing a fun and exciting work environment for our employees, one that nurtures dedication to our customers and technical innovation. For Solid Cage Inc., the customer's satisfaction is job one!

Our operations were incorporated in early 2009 to work under the umbrella of Solid Cage Incorporated. Our organization represents a consortium of dedicated, experienced corporate technical staff, located in suburban South Eastern Michigan, as well as an extensive network of technology contractors and partner organizations.

Our focus market is comprised primarily of small and medium size businesses, including the not for profit organizations.

Our customers commonly seek to:

- Lower operating costs for internal IT (Information Technology) while improving services offered
- Migrate expensive and slower legacy applications to SaaS and Cloud Computing solutions that are lower cost and faster
- Increase customers with sales of SaaS products deployed in the Cloud
- Rapidly develop lower cost SaaS applications to support staff

Solid Cage, Inc. enables their customers to achieve cost reductions, as well as deliver powerful SaaS based solutions, quickly, efficiently and at a reasonable cost. We excel at delivering fixed price solutions and want to work with you.

Our customers are supported by the combined expertise of our technical staff who share years experience utilizing a wide variety of technologies and successful management practices.

Let us work together to bring about the successful solutions you seek.
